AccessPoint® GO Cloud

## Your Quickest Path to Connected Clinical Imaging

Reimagine Medical Image Management

AccessPoint® GO is the shortest distance between two points: your imaging devices and your patient studies. A streamlined cloud gateway that draws a straight line to hassle-free access to your clinical images for interpretation and peer collaboration.

AccessPoint® GO Gateway

- Easily installs anywhere – about the size of a deck of cards
- Securely transports imaging studies from your modalities to the **AccessPoint® Cloud**
- Direct-to-Cloud (D2C) image review, distribution, and archiving

StudyShare™

- Quickly share patient studies with referring physicians and patients via encrypted links
- Comply with ONC's new [CURES Act](#) that requires you to provide patients with access to their health data
- **Never burn referral disks again – ever!**

AccessPoint® GO Cloud grows with you. Add intelligent reporting, post-processing, structured workflows, and enterprise integrations – whenever you're ready to go.
